Library of Things

What is a Library of Things?

A Library of Things (**LoTs**) is an exciting new way some libraries are expanding their collections for their communities. **LoTs** are a unique collection of physical items that can be checked out just like books. **LoTs** allow patrons to borrow physical items like tools, kitchen gadgets, games, and hobby or recreational equipment.

What are some benefits of LoTs for patrons?

- Patrons can try a product before buying one of their own.
- Patrons avoid purchasing items needed only once, or infrequently.
- Patrons can declutter their homes by donating unused items to their community's **LoTs**.

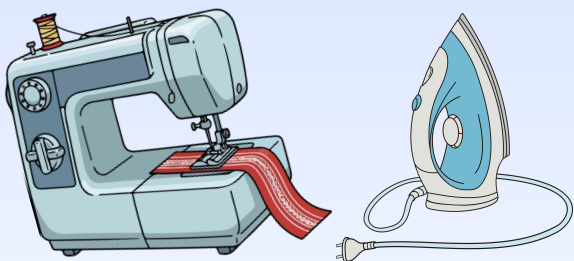

The Indian Lake Library is hoping to expand our own Library of Things (LoTs) and would like to know what *you*, our patrons, would most like to have available to borrow. *[Currently we offer 2 museum passes (AdkX, Wild Center) & 2 birding backpacks.]*

If you are interested, please take the survey below.

We appreciate your input!
